CUSTOMISED PUBLISHING

Himalaya Publishing House Pvt. Ltd. is the first Indian Publisher to offer the services of customised publishing. The '*Customised Publishing Cell*' of the company was established nearly a decade ago.

What is Customised Publishing?

Customised Publishing means designing a book as per the needs of a particular institution. This means designing the look, feel, size, and content of the book as per the Institute's requirements.

The content could be from an existing book published by us. The content then as per your requirements would be appended by our authors. This could mean addition or deletion of content or adding new dimensions to the content, like case studies of a particular industry or specific area.

The following will also be according to the Institute's requirements:

- (a) The size of the book.
- (b) The paper for the cover and the inside content.
- (c) The number of colours to be used for the cover as well as the inside pages.
- (d) The cover design.

The only important thing here is that there should be a minimum number of copies that have to be ordered for.

For more information on this, you may write to us on:
